

Islam's Child Martyrs in America

Frontpage Interview's guest today is Dave Gaubatz, the first U.S. civilian (1811) Federal Agent deployed to Iraq in 2003. He is the owner of DG Counter-terrorism Publishing. He is currently conducting a 50 State Counter-terrorism Research Tour (CTRT). He is the co-author (with Paul Sperry) of the new book, Muslim Mafia: Inside the Secret Underworld that's Conspiring to Islamize America. He can be contacted at davegaubatz@gmail.com and his site is MuslimMafiaInternational.com.

FP: Dave Gaubatz, welcome to Frontpage Interview.

I would like to talk to you today about jihadi torture videos that have come into your possession and also about Islam's child martyrs in America.

But first, give us some updates on your new research in terms of counter-terrorism.

Gaubatz: Thank you Jamie.

I just returned from DC, MD, PA, WV, VA, and NJ conducting various counter-terrorism (CT) research. I would like to say that while various realms of our government are doing an outstanding job in protecting our families from future Islamic based terrorist attacks, we have several serious problems. One of them is that our President doesn't even officially have any type of plans on a "War on Terrorism." Sadly, we are being overtaken by these groups. I meet Americans and other concerned citizens from Canada and the UK, and they know America and their countries are slowly/patiently being overtaken from within, while their leaders are ignoring the national threats.

FP: Give us some specifics on what you have recently discovered.

Gaubatz: I am beginning to see more and more violent material published and distributed to young Muslim children advocating killing Jews and Christians, and how to conduct treason/sedition inside America and to ultimately take our country down as we know it.

CAIR (Muslim Brotherhood) strongly informs its followers to not assist our law enforcement agencies and to not conduct slander and backbiting against Islamic leaders. Within Sharia law there are severe penalties for undermining the efforts of the 'Islamic Ummah' (Nation) and their specific target of a worldwide Ummah under Sharia law.

I have been provided hundreds of DVD's originally videotaped by Islamic terrorist groups while they conducted torture and killings of people (even Muslims) who have helped their enemies (Israel, America, UK, Canada, etc...) to further (in their opinion) oppress the Muslim Ummah.

FP: Talk a bit more about these videos.

Gaubatz: This part of my work is very depressing because I have to review the most extreme animal actions by terrorist groups on innocent people, to include young children. I reviewed hundreds of videos the American people and law enforcement do not get to see, and our government does not want the American people to see. Why? I will explain later. I witnessed innocent people being slaughtered like animals. The Islamic terrorist groups had children cut and behead a fellow Muslim. In addition several young Muslim men had to stand in line and wait their turn to have their tongues removed by an al-Qaeda member with a razor blade. Several men had to put their arm on a board and a terrorist used a baseball to break his arm. Then he had to put his other arm out for the same treatment.

These are the type of people CAIR supports and even our government supports. The IRS grants CAIR and other such organizations non-profit organizational status and tax free benefits, while you and I are forced to pay taxes to support the ideology of the Muslim Brotherhood. Something doesn't seem right and politicians who protect these groups will lose in the end. The American people will not allow our children to suffer at the hands of terrorist groups.

FP: Share with us how Muslim children are being taught to kill "oppressors" of Islam, even inside America.

Gaubatz: For many years I have tracked the materials coming into America from Saudi Arabia and Pakistan specifically. Based on my

Assyrian International News Agency

research, these two countries are responsible for distributing jihadi materials, not just to adults, but to Muslim youth right here in America.

The message is clear: "Islam is a religion of Jihad, in peace and in war. Jihad is one of the noblest principles of Islam." The manual where this message is found is titled, "A Guide for The Young Muslim." The manual further describes Jihad as being physical fighting against their enemies and oppressors. It is admired to be a "martyr." This book was found in northern VA, and a CAIR pamphlet was beside it.

"Martyrdom means transfusion of blood into a society, especially a society from anemia. It is the martyr who infuses fresh blood into the veins of the society." The manual in which this teaching was contained was found in VA (again alongside a CAIR brochure). It is titled "The Martyr" and was originally printed in Houston, TX.

I would like to explain how the above statement is applicable here in America and reaches Muslim children. When Maj. Hasan murdered the innocent people at Fort Hood, he was trying to revitalize the Muslim people to not lose hope, to continue pursuing the agenda of al-Qaeda and others, and most importantly to let them know there are "martyrs" working inside America who are ready to die for Islam. He is 100% correct. Sleeper cells are alive and well not only in America, but Canada, the UK, and most countries worldwide.

The terrorist sleeper cell is not waiting for a "green light" from an al-Qaeda leader who may already be dead (Osama bin Laden); the green light was already given to the Jihadists many years ago. The word is being kept alive through the manuals, DVDs, and books being sent into our country by the leadership of Pakistan and Saudi, with the help of many of our own elected officials. How many people know that Hamas and Saudi Arabia sponsored former President Jimmy Carter's books and paid hundreds of thousands of dollars to get them into the hands of young children so they will support the cause of Palestine/Hamas? Our research team uncovered this several months ago and more documents pertaining to this issue will soon be released to the public.

FP: Ok, we will be talking to you right when you release this information.

Give us an update on the CAIR lawsuit against you and your son, Chris.

Gaubatz: First I would like to thank the many people supporting Chris and I in this frivolous lawsuit (per the words of CAIR Executives). Our attorneys Daniel Horowitz, Bernard Grimm, and Martin Garbus, to name a few are people, I will always respect because they know CAIR is just not targeting Chris and I, but the whole American infrastructure. They are trying to make an example of Chris and me so others will never try and expose them.

But CAIR made one fatal error: They did not realize I have some of the same attributes of the Muslim Brotherhood: I have patience and persistence. I have no fear of terrorist groups or what they can and have tried to do to me in regards to physical attacks. I have no love for material goods such as cars and houses, and most importantly I love my country as much as they love their desire to control our world under Sharia law (an Islamic Nation worldwide).

Behind the scenes during our undercover research, CAIR Executives told our researchers and my own son certain things that amount as a threat to me. I am ready to testify about all of this with hardcore evidence to back me up.

FP: Final words?

Gaubatz: Thank you Jamie. I again want to thank all of my supporters. It will not be me that legally defeats the Muslim Brotherhood, it will be the people behind the scenes who care for our country and who support the work my team and I do each day to protect our country.

In addition to the time, locations, and dates, Islamic based terrorist acts are committed with much more thought than many of our "authorities" would like you to believe. There is actually a day set aside to celebrate "martyrs" who have given their life to murder innocent Jews, Christians, and non-Muslims not adhering to the strict laws of Sharia. It is called the "The Day of Ashura" (10th Muharram). Readers who are interested should research on their own how many terrorist attacks have been finalized on the 10th of a month, and carried out on the 11th.

Thank you Jamie.

FP: Dave Gaubatz, thank you for joining us.
